

TPP MATTERS FOR ALABAMA FAMILIES

The Trans-Pacific Partnership trade agreement would help 1.2 million Alabama families by lowering the cost of the consumer goods they buy. Prices of merchandise imported from TPP countries currently reflect hidden taxes (tariffs) that are often quite high, but passage of TPP would make products that meet the rules of origin more affordable.

Furthermore, passing the TPP would:

- Ensure safer transactions for Alabama online shoppers through greater protection of personal information.
- Provide greater opportunity for Alabama retail businesses to quickly move products from TPP countries into the state and onto their shelves.
- Guard against the sale of counterfeit goods to Alabama shoppers.
- Support ethical and safe production of goods making their way from TPP countries onto Alabama shelves.

Trade supports 101,000 Alabama retail jobs. Passing the TPP agreement would help grow the Alabama workforce, raise wages and further help families in the state.

TPP MATTERS FOR MASSACHUSETTS FAMILIES

The Trans-Pacific Partnership trade agreement would help 1.6 million Massachusetts families by lowering the cost of the consumer goods they buy. Prices of merchandise imported from TPP countries currently reflect hidden taxes (tariffs) that are often quite high, but passage of TPP would make products that meet the rules of origin more affordable.

Furthermore, passing the TPP would:

- Ensure safer transactions for Massachusetts online shoppers through greater protection of personal information.
- Provide greater opportunity for Massachusetts retail businesses to quickly move products from TPP countries into the state and onto their shelves.
- Guard against the sale of counterfeit goods to Massachusetts shoppers.
- Support ethical and safe production of goods making their way from TPP countries onto Massachusetts shelves.

Trade supports 154,000 Massachusetts retail jobs. Passing the TPP agreement would help grow the Massachusetts workforce, raise wages and further help families in the state.

TPP MATTERS FOR MICHIGAN FAMILIES

The Trans-Pacific Partnership trade agreement would help 2.5 million Michigan families by lowering the cost of the consumer goods they buy. Prices of merchandise imported from TPP countries currently reflect hidden taxes (tariffs) that are often quite high, but passage of TPP would make products that meet the rules of origin more affordable.

Furthermore, passing the TPP would:

- Ensure safer transactions for Michigan online shoppers through greater protection of personal information.
- Provide greater opportunity for Michigan retail businesses to quickly move products from TPP countries into the state and onto their shelves.
- Guard against the sale of counterfeit goods to Michigan shoppers.
- Support ethical and safe production of goods making their way from TPP countries onto Michigan shelves.

Trade supports 206,000 Michigan retail jobs. Passing the TPP agreement would help grow the Michigan workforce, raise wages and further help families in the state.

TPP MATTERS FOR SOUTH CAROLINA FAMILIES

The Trans-Pacific Partnership trade agreement would help 1.2 million South Carolina families by lowering the cost of the consumer goods they buy. Prices of merchandise imported from TPP countries currently reflect hidden taxes (tariffs) that are often quite high, but passage of TPP would make products that meet the rules of origin more affordable.

Furthermore, passing the TPP would:

- Ensure safer transactions for South Carolina online shoppers through greater protection of personal information.
- Provide greater opportunity for South Carolina retail businesses to quickly move products from TPP countries into the state and onto their shelves.
- Guard against the sale of counterfeit goods to South Carolina shoppers.
- Support ethical and safe production of goods making their way from TPP countries onto South Carolina shelves.

Trade supports 107,000 South Carolina retail jobs. Passing the TPP agreement would help grow the South Carolina workforce, raise wages and further help families in the state.

TPP MATTERS FOR SOUTH DAKOTA FAMILIES

The Trans-Pacific Partnership trade agreement would help 210,000 South Dakota families by lowering the cost of the consumer goods they buy. Prices of merchandise imported from TPP countries currently reflect hidden taxes (tariffs) that are often quite high, but passage of TPP would make products that meet the rules of origin more affordable.

Furthermore, passing the TPP would:

- Ensure safer transactions for South Dakota online shoppers through greater protection of personal information.
- Provide greater opportunity for South Dakota retail businesses to quickly move products from TPP countries into the state and onto their shelves.
- Guard against the sale of counterfeit goods to South Dakota shoppers.
- Support ethical and safe production of goods making their way from TPP countries onto South Dakota shelves.

Trade supports 23,000 South Dakota retail jobs. Passing the TPP agreement would help grow the South Dakota workforce, raise wages and further help families in the state.
